

Hallite 860

Wiper

The Hallite 860 is a metal cased wiper designed to press-fit into open groove housings.

Hallite's 860 wiper comprises a precision trimmed polyurethane wiping element which is securely bonded to a metal case treated with a rust inhibitor. Capable of operating in dirty conditions, the proportions of the polyurethane wiping lip allow it to follow the side movement of the rod and to clear away heavily deposited dirt.

Suitable for light, medium and heavy-duty applications, the wiper has been designed to provide ease of installation and offers excellent durability in service. The Hallite 860 offers a range of sizes suitable for ISO 6195 type B housings and a range of standard Asian housings.

- *Ease of assembly*
- *Long life*
- *Precision trimmed wiping lip*
- *Metal case treated with a rust inhibitor*
- *Wide range of application uses*
- *Range includes ISO and standard Asian housings*
